

## Rocker Arms and Shafts Disassembly/Reassembly

**NOTE:**

- Identify parts as they are removed to ensure reinstallation in their original locations.
- Inspect rocker shafts and rocker arms (see page 6-34).
- Rocker arms must be installed in the same position if reused.
- Prior to reassembling, clean all the parts in solvent, dry them, and apply lubricant to any contact points.
- Bundle the rocker arms with rubber bands to keep them together as a set.
